

**miniships®**

## ABOUT

Miniships made a dynamic start in 2020 with the purchase of quality Japanese built secondhand dry cargo and tanker vessels. Following the incorporation of the first vessels the company proceeded in an agreement with KTU shipyard to purchase one cement carrier, already under management and one product carrier to be delivered early 2021.

The company goal is to expand in size at a fast pace with modern design new-buildings as well as second hand tonnage.

## MISSION

Miniships pursues to load, transport and deliver the goods entrusted to our vessels timely and securely. We do this by shore and ship personnel team work under clear and consistent leadership.

We consider as our duty to :

- Safeguard health, safety and environment
- Value and respect our partners
- Be transparent
- Be collaborative.

## VISION

Miniships vision is to set the highest standards for Quality Ship Management in Indonesian and ASEAN waters. We seek to expand with the same high standards to other world trading areas in the near future. In this way the company aims to become the benchmark for other Ship Management companies for commerce, operations, safety, quality and technical competency.

# SERVICES

## 01. SHIP MANAGEMENT

Miniships ensures that the best practices are implemented and applied in the management of our vessels under full compliance with national and international regulations. Our technical department plans in advance maintenance and continuously controls the condition of our vessels preventing downtime and unnecessary costs.

The operations team schedules the voyages ahead taking in consideration every aspect, from weather condition to port congestion.

We consider our crews to be an indivisible part for the success of our management and we endeavour in continuous guidance and collaboration with every crew member.

## 02. CHARTERING

We make sure that in every step of the fixture, from starting negotiations to signing of the charter party, the charterers are our partners and the success of the voyage our obligation.

Miniships is there also to provide charterers with the service of competitive brokerage for any cargo and destination.

## 03. THIRD PARTY MANAGEMENT

We are confident that we possess the right skills, attitude and mentality to successfully manage the vessels that their owners shall entrust to us.

## FLEET

We presently manage a fleet of five vessels varying in size and type. The fleet includes general cargo vessels, cement carriers and oil tankers.
